

## PA's Mission Statement

---

To **Build** and to **Bridge** communities in achieving One People, One Singapore

<b>Build</b>	PA's role in bringing people, with common interests (e.g. activities and courses) or common traits (e.g. youths), together to interact and bond. We enable and encourage residents to form groups, and develop friendships around common interests.
<b>Bridge</b>	<p>Connecting communities and groups with different interests and backgrounds (e.g. different races, religions, socio-economic background), and bringing them together on common platforms where they can develop friendships and strong bonds.</p> <p>All this is done to help build a resilient and cohesive community "One People, One Singapore", that stands united and stays together, regardless of race, language or religion.</p>
