ABOUT WATER-VENTURE

Water-Venture is an integral part of the People's Association that bonds people and bridges the communities through adventure and water sports. We provide a common platform for residents of all ages with opportunities to come together, interact and participate in our courses and activities.

KAYAKING

Over the years, Kayaking has evolved into a popular leisure and competitive sport. Rent a kayak from us and you will be able to explore exotic locations by sea or take in the sights and serenity of our reservoirs. Pick up the sport as a beginner or increase your proficiency with the various tiers of the STAR Award.

**Non-certified kayakers can only rent either single or double kayak at our reservoir outlets namely Water-Venture (Bedok Reservoir), Water-Venture (Lower Seletar Reservoir) and PAssion WaVe @ Marina Bay.*

DRAGON BOATING

Experience the adrenaline rush like no other with Dragon Boating. Move to the sound of the beating drums, steady steering of the coxswain and collective teamwork of the crew. Originating from China, Dragon Boating is now popular amongst teams from the local community ranging from youths to active agers. Join our programmes and train with a team of committed rowers!

BELL BOATING

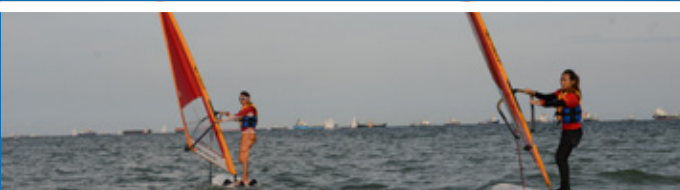

Looking for an entry-level water sport that is perfect for all ages? Bell Boating is the answer! Offering a unique take on water sports, Bell Boating promotes a platform focusing on camaraderie and co-operation without the distraction of balancing techniques or direction control. Take on your Bell Boat experience today with us!

SAILING

Have you ever dreamt of being a sailor? Acquire the skills and catch the wind with your sails with our fleet of PICO and LASER sailboats. Adventure seekers can also look forward to expeditions to the islands for camping and exploration.

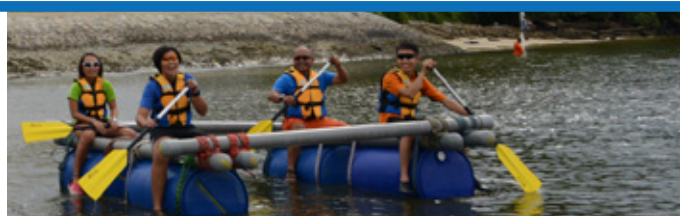

WINDSURFING

Want the excitement of riding and jumping waves in rough sea conditions? Then, windsurfing is for you!

Windsurfing, growing in popularity worldwide, is a combination of physical and technical skills, where coordination is the name of the game and balance is the key. If speed is a need, this sport will bring you to another dimension.

SEA RAFTING

Learn the techniques of constructing your very own rescue craft from a mixture of basic materials with Water-Venture. Try your hands on building a sea-raft yourself – then test it out at sea! We are not saying you will ever need one – but if you do, you know how to make one for your loved ones!

ABSEILING

Abseiling means 'To rope down' in German and that is exactly what you will learn from our abseiling programmes. Experience the thrill of scaling down heights with our Orientation Programme or perfect your ascend, descend and self-rescue manoeuvres under the guidance of our experienced trainers!

POWER BOATING

Let your piloting dreams come true. Sign up for the Powered Pleasure Craft Driving License (PPCDL) training course and be on your way to kicking back at the helm of your boat and steering in local waters. Our course comprises both theory and practical lessons which are structured to the requirements and standards set by the Maritime Port Authority of Singapore (MPA).

SPORT CLIMBING

Sport Climbing is a style of rock-climbing that relies on permanent anchors fixed to an artificial rock formation. For adventurers who are seeking the excitement of scaling to greater heights, this is ideal for you. With a comprehensive line-up of programmes from orientation to proficiency courses, you will be able to choose your best fit.

PROJECT BLUE WAVE

BLUE RIPPLE

The Blue Ripple Programme allows you to immerse in nature, have fun with themed interactive games and learn about the environment we live in. You will embark on a short journey to help clean up marine debris and restore the beautiful landscape.

KAYAK 'N' KLEAN

If you love kayaking and have a passion for a clean & blue waterscape, you are the right person we are looking for! Join our Kayak 'N' Klean programme as we lead exploratory expeditions around Singapore's water-bodies and raise awareness on the negative effects of litters in our reservoir. As a paddler, you can now make a difference for cleaner, blue waters – the home of your passion.
